"Pam and I visited Adele Ordansky who is a spry 90 year old with all her faculties. She was so excited to have visitors and shared with us about her family and her teaching career. She went back to college at 37 to become a teacher and taught high school French for many, many years. Her room overlooks Vanderbuilt Elementary school and it brings her so much joy to watch the children play in the playground. It was truly a mitzvah to spend the time with her and we look forward to another visit."
